

StormShield®

Keep Your Garage Drier, Cleaner and Pest Free!

New garage door threshold that FILLS the gap

Our precision-engineered vinyl threshold is the homeowner's answer to preventing dirt, leaves, rain, snow and pesky rodents from finding their way into your garage as well as reducing expensive heat/cooling loss! Easily mounted on the floor of your garage with industrial strength adhesive (provided), STORM SHIELD forms a positive seal with the existing weatherstripping of your garage door. Available in 10', 16', 18' and 20' kits, or in bulk cut to your specifications. Simple to install! Two-year residential warranty.

StormShield®

GARAGE DOOR THRESHOLD

New Garage Door Threshold
that FILLS the gap.

Benefits of Storm Shield®

- Prevents water, wind-driven rain, snow, dust, dirt and leaves from entering under the garage door
- Vehicles, sports and recreational equipment, tools and household goods are kept cleaner and drier
- Rust and moisture damage to residential, commercial and industrial tools and machinery can be dramatically reduced
- **STORM SHIELD**'s barrier prevents most rodents, snakes and small pests from entering under the garage door, making for a more pleasant environment
- Is resistant to oil, gas, antifreeze and other chemical substances commonly found in garage environments
- In addition, heating and air conditioning bills can be reduced by combining **STORM SHIELD** with existing weatherstripping of the overhead door. The seal created prevents energy from escaping through the gaps, saving energy year-round on homes and businesses with attached garages
- Won't crack, move or shatter despite temperature extremes
- Comes complete with two-year residential warranty
- Proudly made in the U.S.A.
- Easy do-it-yourself installation
